Race With Respect: Event Code of Conduct

Respect for Venues, Facilities and Officials

In the spirit of Motorsport UK's Race With Respect, all families, parents, guardians and children attending motorsport events are expected to help protect the venue and contribute to a safe, welcoming and respectful environment for everyone. Respect for the sport includes respect for the places that host it and the people who make events possible.

- Families and children must treat all venue property with care and respect at all times, including paddock areas, seating, barriers, signs, fencing, play areas and any equipment provided for public use.
- Toilets, washrooms and baby-changing facilities must be used properly and left clean and tidy for others. Deliberate damage, vandalism, misuse or leaving facilities in an unacceptable condition is not acceptable.
- Parents and guardians are responsible for supervising children and ensuring they do not damage buildings, fixtures, fittings or grounds, and that they behave safely and considerately around the venue.
- All rubbish should be placed in bins or taken away, and families should make every effort to leave shared spaces as they would wish to find them.
- Officials, marshals, volunteers, venue staff and organisers must be treated politely and with respect at all times. Instructions given for safety, access or event management must be followed promptly and without argument or abuse.
- Offensive, aggressive or disrespectful behaviour towards officials, volunteers, staff, competitors or other spectators is contrary to the values of respect, self-control and good manners expected within motorsport.
- Any family or individual who causes damage, behaves abusively or repeatedly fails to respect the venue and its facilities may be asked to leave and may be subject to further action under event or club rules.
- Follow the venue published rules such as no go areas, ground sheets in pit-bays
